

GAMMONS MEDICAL
1223 South Washington Ave
Royal Oak, MI 48067

Patients understand how to appropriately use Suboxone (under the tongue and not until in significant withdrawals). Patient understands and agrees to avoid all opiates, illicit drugs, and other substances of abuse while taking Suboxone. Patient agrees to participate in psychosocial supports such as 12-step based recovery and or individual and group counseling both during and after Suboxone use (business cards and brochures are available at reception area). The above was discussed in detail. Patient is alert oriented, and verbalizes understanding of the above.

Dr. Timothy Gammons D.O.
